Author Index Volume 15 (1999)

(The issue number is given in parentheses)

Albertson, K. and **J. Aylen,** Forecasting using a periodic transfer function: with an application to the UK price of ferrous scrap (4) 409–419
Andrada-Félix, J., *see* **Fernández-Rodríguez, F.** (4) 383–392
Aylen, J., *see* **Albertson, K.** (4) 409–419
Ayton, P., W.R. Ferrell and **T.R. Stewart,** Commentaries on "The Delphi technique as a forecasting tool: issues and analysis" by Rowe and Wright (4) 377–382

Batchelor, R., *see* **Sigelman, L.** (2) 125–126
Birchenhall, C.R., *see* **Osborn, D.R.** (1) 27– 47
Boe, C., *see* **Tuljapurkar, S.** (3) 259–271
Boulier, B.L. and **H.O. Stekler,** Are sports seedings good predictors?: an evaluation (1) 83– 91
Brown, L.B. and **H.W. Chappell Jr.,** Forecasting presidential elections using history and polls (2) 127–135
Bunn, D.W., *see* **Taylor, J.W.** (3) 325–339
Bunn, D.W. and **A.I. Vassilopoulos,** Comparison of seasonal estimation methods in multi-item short-term forecasting (4) 431–443

Cao, L. and **A.S. Soofi,** Nonlinear deterministic forecasting of daily dollar exchange rates (4) 421–430
Chappell Jr., H.W., *see* **Brown, L.B.** (2) 127–135

DeSart, J.A., *see* **Holbrook, T.M.** (2) 137–142
Diamantopoulos, A. and **H. Winklhofer,** The impact of firm and export characteristics on the accuracy of export sales forecasts: evidence from UK exporters (1) 67– 81

Egginton, D.M., Testing the efficiency and rationality of City forecasts (1) 57– 66
Eisinga, R., P.H. Franses and **M. Ooms,** Forecasting long memory left–right political orientations (2) 185–199

Falk, B., Fitting autoregressive trend stationary models with finite samples (1) 11– 25
Fernández-Rodríguez, F., S. Sosvilla-Rivero and **J. Andrada-Félix,** Exchange-rate forecasts with simultaneous nearest-neighbour methods: evidence from the EMS (4) 383–392
Ferrell, W.R., *see* **Ayton, P.** (4) 377–382
Fintzen, D. and **H.O. Stekler,** Why did forecasters fail to predict the 1990 recession? (3) 309–323
Fischer, I. and **N. Harvey,** Combining forecasts: What information do judges need to outperform the simple average? (3) 227–246
Franses, P.H. and **H. Ghijsels,** Additive outliers, GARCH and forecasting volatility (1) 1– 9
Franses, P.H., *see* **Eisinga, R.** (2) 185–199

Ghijsels, H., *see* **Franses, P.H.** (1) 1– 9
Goodwin, P. and **R. Lawton,** On the asymmetry of the symmetric MAPE (4) 405–408

Harvey, N., *see* **Fischer, I.** (3) 227–246
Heravi, S., *see* **Osborn, D.R.** (1) 27– 47
Holbrook, T.M. and **J.A. DeSart,** Using state polls to forecast presidential election outcomes in the American states (2) 137–142

Jérôme, B., V. Jérôme and **M.S. Lewis-Beck,** Polls fail in France: forecasts of the 1997 legislative election (2) 163–174
Jérôme, V., *see* **Jérôme, B.** (2) 163–174

Kim, J.H., Asymptotic and bootstrap prediction regions for vector autoregression (4) 393–403

Lawton, R., *see* **Goodwin, P.** (4) 405–408
Lewis-Beck, M.S., *see* **Jérôme, B.** (2) 163–174
Lewis-Beck, M.S. and **C. Tien,** Voters as forecasters: a micromodel of election prediction (2) 175–184

McKenzie, M.D., Power transformation and forecasting the magnitude of exchange rate changes (1) 49– 55
Mest, D.P. and **E. Plummer,** Transitory and persis-

PII: S0169-2070(99)00027-8

tent earnings components as reflected in analysts' short-term and long-term earnings forecasts: evidence from a nonlinear model (3) 291–208
Miller, D., *see* **Williams, D.W.** (3) 273–289
Mills, T.C. and **G.T. Pepper**, Assessing the forecasters: an analysis of the forecasting records of the Treasury, the London Business School and the National Institute (3) 247–257

Ooms, M., *see* **Eisinga, R.** (2) 185–199
Osborn, D.R., S. Heravi and **C.R. Birchenhall**, Seasonal unit roots and forecasts of two-digit European industrial production (1) 27– 47

Pepper, G.T., *see* **Mills, T.C.** (3) 247–257
Plummer, E., *see* **Mest, D.P.** (3) 291–208

Rallings, C. and **M. Thrasher,** Local votes, national forecasts – using local government by-elections in Britain to estimate party support (2) 153–162
Rowe, G. and **G. Wright,** The Delphi technique as a forecasting tool: issues and analysis (4) 353–375

Scott Armstrong, J., Introduction to paper and commentaries on the Delphi technique (4) 351–352
Sigelman, L., R. Batchelor and **H. Stekler**, Political forecasting (2) 125–126
Soofi, A.S., *see* **Cao, L.** (4) 421–430
Sosvilla-Rivero, S., *see* **Fernández-Rodríguez, F.** (4) 383–392
Stambough, S.J. and **G.R. Thorson,** Toward stability in presidential forecasting: the development of a multiple indicator model (2) 143–152
Stekler, H., *see* **Sigelman, L.** (2) 125–126
Stekler, H.O., *see* **Boulier, B.L.** (1) 83– 91
Stekler, H.O., *see* **Fintzen, D.** (3) 309–323
Stewart, T.R., *see* **Ayton, P.** (4) 377–382

Taylor, J.W. and **D.W. Bunn,** Investigating improvements in the accuracy of prediction intervals for combinations of forecasts: A simulation study (3) 325–339
Thorson, G.R., *see* **Stambough, S.J.** (2) 143–152
Thrasher, M., *see* **Rallings, C.** (2) 153–162
Tien, C., *see* **Lewis-Beck, M.S.** (2) 175–184
Tuljapurkar, S. and **C. Boe,** Validation, probability-weighted priors, and information in stochastic forecasts (3) 259–271

Vassilopoulos, A.I., *see* **Bunn, D.W.** (4) 431–443

Williams, D.W. and **D. Miller**, Level-adjusted exponential smoothing for modeling planned discontinuities (3) 273–289
Winklhofer, H., *see* **Diamantopoulos, A.** (1) 67– 81
Wright, G., *see* **Rowe, G.** (4) 353–375
